

## MAAE Degree Program Timeline

### 3-semester plan

Fall	Spring	Summer	Fall
ACE 500 (4 credits) ACE 562 (2 credits) ACE 564 (2 credits) Graduate Elective (3-4 credits)	Quantitative Methods Course (4 credits)  Graduate Field Courses and/or Electives (7-8 credits)	Professional Internship (2 credits)	Graduate Field Courses and/or Graduate Electives (6-8 credits)

### 2-semesters + summer plan

ACE 500 (4 credits) ACE 562 (2 credits) ACE 564 (2 credits) Graduate Field Courses or Electives (6-8 credits)	Quantitative Methods Course (4 credits)  Graduate Field Courses and/or Electives (10-12 credits)	Professional Internship (2 credits)	
--	--	---	--

### B.S. + MAAE plan (1-year graduate component)

ACE 500 (4 credits) ACE 562 (2 credits) ACE 564 (2 credits) Graduate Field Course (4 credits)	Quantitative Methods Course (4 credits)  Graduate Field Courses (8 credits)	Professional Internship (2 credits)	
---	--	---	--

The standalone MAAE can be completed in a single calendar year by taking heavier course loads during the fall and spring semesters. Note that course scheduling conflicts need to be considered to assess the feasibility of meeting program requirements in 2 semesters plus a summer internship. MAAE programs may also be extended to up to 4 semesters to fit student needs.

### **Professional Internship Experience**

MAAE students will work with advisors to successfully obtain and complete a professional internship or research apprenticeship as part of the program requirements. Internships are typically completed the summer after coursework requirements are met.

Program advisors will support students in identifying opportunities and preparing for their internships.
